

Thursday, May 15th  
Notes

Plan:

We need to come up with some specific guidelines about ways to improve communication. Let's prioritize and perhaps choose 3 short term goals and a few long term goals. Things that we can do that we don't have to delegate as well as suggestions for new administration.

\*\*\* Let's come back to this same list and think about how we can finish these up?

We may need to form some sub-committees that can address this?

Aesthetics:

- Change the entrance
- Think about effected people if dumpster moved
- Incorporate art
- Green spaces?

Morale/Pride:

Bride/Culture:

- There is no clear Oxbow logo. Both Lomond and Hank cannot confirm.
- And what is the mission statement? Is it too long? It should be short enough so that we can say it.

Parent engagement/volunteering:

- Fingerprinting
- Create more opportunities and connections

Improved communication to parents

- Email newsletter
- Listserv- we can add information to the Newbury Listserv (Jean will look into this)
- Communication Choice Form- recommendation to the Board?
- Analysis of communication details and clarification of roles in school
- Look into 'Rural Partnership' grant for increasing
- Let's put 'purple pride' in the website and on facebook
- Get letterhead to include website
- Perhaps a moodle course? How many people don't have computers or internet?

How does information flow around the school?

Some students say that 2 or 5 friends don't have computers at home.

Reasons behind this include lack of access in rural areas.
